GREAT MIGRTION AND BEACH HOLIDAY

Tour Highlights

A Great Migration & Beach holiday in Tanzania is hard to beat with the Serengeti being the setting of the largest herd movement of animals on the planet and Zanzibar offering some of the best tropical beaches in the world.

Enjoy the endless savannah plains, overwhelming wildlife, wildebeest calves being born, breath-taking sunsets and the sound of the Indian Ocean that gently rolls onto the white beaches. This itinerary is best from December to April.

You should come and get a chance to enjoy wild game in their natural habitat from the chimpanzee at Ol Pejeta Sanctuary to the pride of lions on the Mara plains eagerly waiting for the migrating wildebeest.

The Grumeti River is home to some of the world's biggest Nile crocodiles. These crocodiles are infrequent eaters and wait for the migration river crossings to provide them with food.

This is our typical sample for 14 days Tanzania wildlife safari and Zanzibar. If you are planning a two weeks' tour in Africa, you and your partners or for your family then this is the most ideal safari package.

DAY 1: Arrival – Arusha

Upon arrival at Kilimanjaro airport, you will be met by your driver and transferred to Recommended Accommodation in Arusha for dinner and overnight. Settle into your accommodation, ready to start your safari proper in the morning.

Additional notes:

- This is your first day on safari, so we ask that you please pay special attention to the national park's visitor rules and our company recommendations.
- During the safari it is strictly prohibited to exit the vehicle, except for in specially designated areas. Violations of this rule may be accompanied by large fines for the company, including the revocation of its license.
- Off road driving is also prohibited, as such behaviour may cause irreparable damage to the fragile balance of the natural ecosystem.
- During the safari you are allowed to smoke, but be extremely careful about how you extinguish and dispose of cigarette butts, as they are a frequent cause of fires in the savannah.
- In addition, we sincerely request that you not put your feet on the safari car's seats, nor sit on the back of them, because this type of behaviour quickly makes the cars unusable.

Thank you in advance for your understanding.

DAY 2: Tarangire National Park

After breakfast, you drive to Tarangire National Park where your safari starts. This lovely park boasts the largest concentrations of elephants in the world and the highest number of breeding bird species.
